

Update course FOR ICT COORDINATORS

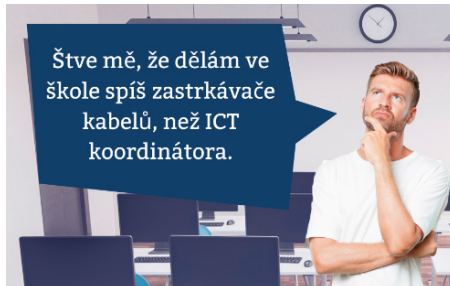

Martina Majer, Dagmar Chytková

WHY?

NEW STANDARD
REDEFINES THE ROLE

- shifts ICT coordinators from **IT technicians and network administrators to pedagogical leaders, mentors, digital literacy champions strategic thinkers**

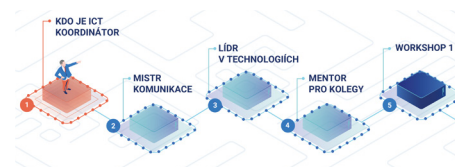

TECHNOLOGY RAPIDLY
EVOLVES

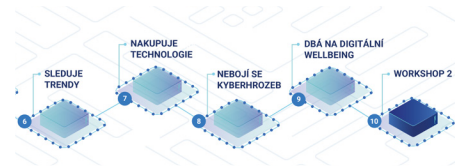

- it's crucial for ICT coordinators **to stay up-to-date with the latest trends and innovations**, because it helps keep the school at the forefront of technology and ensures its safe and effective use

WHAT?

LEARNING PATH
WITH TEN STOPS

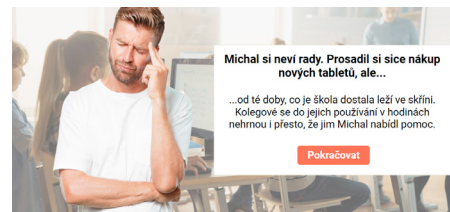

- **new definition of the role, leadership, effective communication, mentoring, AI and latest trends in technology, cybersecurity, and digital wellbeing**

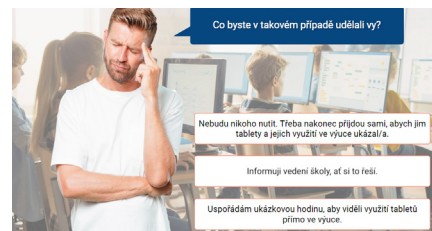

- **two in-person workshops to support networking and sharing of best practices**
- **self-directed learning, free navigation, no obligatory tasks**

HOW?

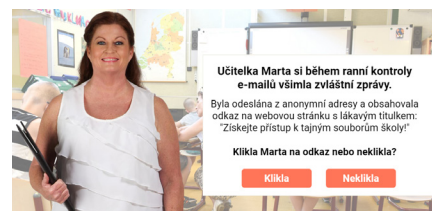

PROBLEM SOLVING APPROACH
AND RELEVANT CONTENT

- **virtual colleague** Michal presents **real-world challenges** ICT coordinators often face and **offers practical tools and strategies to address them**

- **problem-solving activities** that are grounded in real life situations from schools to make the learning experience more engaging, interactive and relevant

- **case studies, simulations, and exercises to engage participants effectively**

WHAT DO ICT COORDINATORS SAY ABOUT THE COURSE?

Thank you very much for this opportunity to share experiences and gain new knowledge and insights.

Thank you for creating this course. There's nothing like it on the market. I would appreciate the opportunity to undergo training in this shorter format again in two years to gain new insights in IT.

Thank you so much for the opportunity to participate in this course. Even though I try to keep up with the trends, I still learned a lot of new information. Thank you to everyone. The atmosphere at the workshops was wonderful.
